

Preliminary Course Enrolment Form University College Utrecht

Universiteit Utrecht

Dear exchange student,

A list with all the courses offered at University College is available on the internet: www.uu.nl/ucu. This list does not indicate the semester the course is taught. Therefore, as soon as you are accepted your appointed tutor will provide you with a course schedule for the semester you applied to.

Please note, that we only use this form as an indication of your interest. You are not automatically enrolled in the courses you indicate. Also, UCU does not guarantee that your home university requirements can be fulfilled. Of course, UCU will do its best to put you in courses that you like and need, but enrolment in specific courses is **not** guaranteed. It is dependent on the schedule, how competitive a course is and to what extent you fulfill the prerequisites.

Please indicate on this study plan which courses you would like to take at UCU. A full time study load consists of four courses of 7,5 ECTS per semester; please list at least 7 or 8 courses that interest you. Number your choice in order of preference. You are allowed to take up to a maximum of 2 courses per field of study (e.g. Psychology, Chemistry).

A few tips:

- ⇒ For detailed course descriptions you can check our website: www.uu.nl/ucu
- ⇒ Native speakers English: you are advised to take mostly 200 and 300-level courses. 100-level courses tend to put a lot of emphasis on writing skills, as most of our regular UCU students are not native speakers of English.
- ⇒ Note that laboratory courses and language courses other than Dutch are in general not open to exchange students.
- ⇒ Each course meets twice a week. Please note that class attendance is mandatory at University College Utrecht.
